

Enhanced Yield (Income) Note

How it works: Income Notes provide an income stream contingent to the performance of an underlying asset(s) (typically Index, ETF or Stock). Income is paid at predefined dates if the value of the underlying asset(s) is at or above the coupon protection barrier.

Proposal Terms

| | | | |
|-----------------------|------------------------------------|------------------------------|----------------------|
| Issuer: | National Bank of Canada (Aa2 / A+) | Principal Protection: | 40% Barrier |
| Underlying(s): | SPX / RTY / KRE | Coupon Protection: | 30% |
| Term: | 60 Months (6moNC) | Call Feature: | Autocallable Monthly |
| Payoff: | 14.30% p.a. | Coupons: | Contingent Monthly |

Product Details

Contingent Coupons: A coupon is paid if the value of the underlying asset(s) on predetermined "observation dates" (monthly) is at or above the coupon protection barrier.

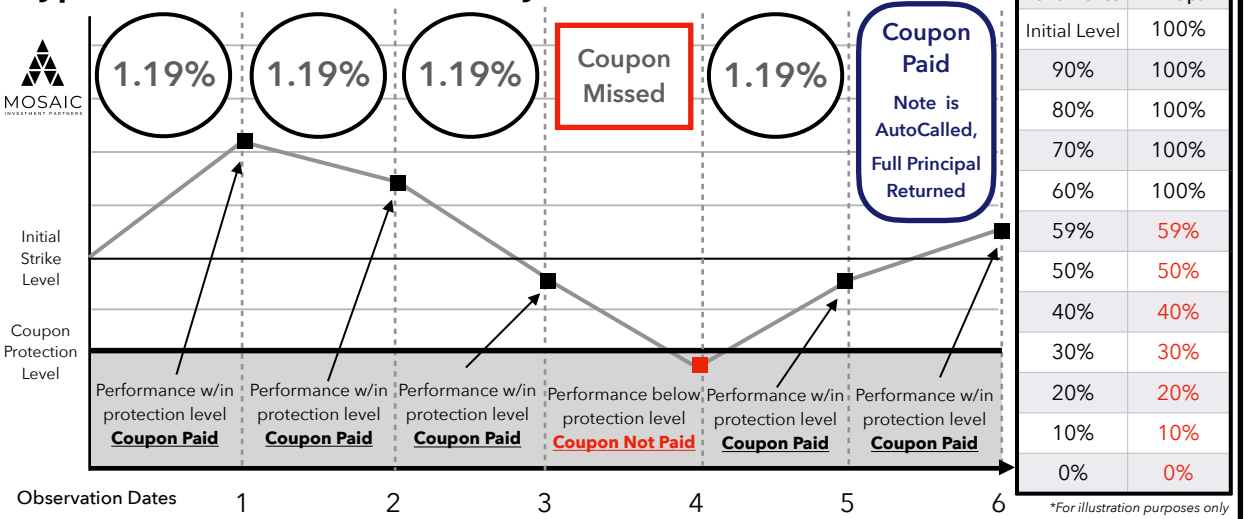

AutoCall Feature: This note will be *automatically* called away if the value of the underlying asset(s) on predetermined "observation dates" is at or above the initial strike level (100% of initial). If called away, the full principal investment is returned (in addition to the final coupon payment).

Payment at Maturity (40% Principal Barrier Protection):

- ✓ If all underlying asset(s) are at or above 60% of their initial strike level at maturity, the note matures at par.
- ✓ If any underlying asset(s) are below 60% of their initial strike level at maturity, the investor realizes the full downside of the worst-performing asset.
- ✓ **Principal protection is only observed at maturity**

Total Return = Principal Received at Maturity + Total Coupons Paid throughout the Investment Term

Hypothetical Income Note Payoff Chart

Principal Protection

Principal protection is only observed at maturity

If all underlying asset(s) are above the principal protection level, full principal is returned. If any of the underlying asset(s) is below the principal protection level, losses reflect the total negative performance of the underlying.

About MOSAIC Investment Partners

MOSAIC Investment Partners, LLC is a 100% employee owned private partnership founded in 2024. MOSAIC is focused on delivering superior client outcomes through innovative defined outcome solutions.

Being independent and 100% employee owned allows MOSAIC to provide best execution services, including best pricing and access to counter-party diversification, on behalf of our clients. MOSAIC Investment Partners maintains relationships with all major banks and custodians.

Disclosures

Structured note investments may not be suitable for all investors and are considered complex investment products. Structured products contain unique features, risks, terms, fees, charges & expenses specific to each investment. Principal is not guaranteed and is subject to the credit worthiness of the counter-party. Investments in complex products are subject to the risks of the referenced underlying asset(s) the product is linked. Additional risks include, but are not limited to, market, liquidity, early termination, credit & payoff risks, as well as other risks that may be associated with foreign, developing or emerging markets such as geopolitical, currency and economic risks.

Participation in the underlying reference asset(s) may be subject to certain caps and restrictions. Any investment product with leverage may work for or against the investor. Market-linked products are subject to the credit worthiness of the issuer. Selling complex products, market linked certificates of deposits (CDs) or principal protected notes prior to maturity are subject to possible loss of principal, as there may not be an active secondary market.
